ICP Nomination and Election Committee

Dear Machiko and members of the ICP Committee for Nominations and Elections, in response to the request of several members of the ICP, I consent and I am willing to accept the invitation to be a candidate for President Elect.

My commitment to the ICP began in one of the regional meetings organized by Dr. Anna Laura Comunian at the University of Padova, Italy, in 1992. From since, I have tried to attend regularly, presenting the results of my research, in all the annual meetings that my academic and family obligations have allowed me. I especially remember the conferences of Lisbon 1994, Banff 1996, Padova 1997, Winchester 2001, Jinan 2004, Iguazú 2005, Kos 2006, San Diego 2007, Saint Petersburg 2008, Washington 2011, Sevilla 2012, Paris 2014 and New York 2017, in which I have always had the pleasure of meeting professional wonderfuls.

For years I am chair of the ICP in Spain and between 2007-2012, I was a member of the Board of Directors, organizing in 2012 at the University of Seville where I work, our 70th annual meeting. Likewise - thanks also to financial support from the University of Seville - we were able to publish its proceeding in 2015, along with the work submitted in 2011 in Washington.

In case of being elected, I am particularly concerned about two issues, the promotion the of incorporation of new generations and the recruitment of new members from Spanish and Latin American universities,, with whom I collaborate assiduously, since at present there are very few ICP members with these characteristics.

The recognition of need for new sap that can contribute to the continuity of all the positive values transmitted by the ICP, I do it from the conviction that it is no less important to continue recognizing and making visible our women pioneers, the first psychologists who helped to cement not only the ICP, but also our discipline, Psychology, all over the world.

I hope to be able, if I were elected, to assume the position with the dignity that this great responsibility deserves. A cordial greeting!

Ana Guil-Bozal Ph.D.
