## PRESIDENT'S COLUMN

*"Psychology's  
Contribution to  
People, the  
Planet, and the  
World"*

## My year as ICP

**President** began at the wonderful 75th ICP, Inc. Conference in New York City. With over 100 people attending from all over the world, we had a rich array of programming.

**Janel Gauthier, President of IAAP** inspired us with his keynote address on the *Universal Ethics Code for Psychologists*, a fitting beginning to our theme of *Psychology's Contribution to People, the Planet, and the World*.

**Our symposia** included Sandra Neil's annual *Summit on Human Rights*, a new collaborative research exchange on *Global and Diverse Leadership* organized by Jean Lau Chin, and a memorable **reunion of ICP former presidents, Footprints and Visions**, organized by Ann Marie O'Roark. The symposia provided renewed energy to inspire our Membership toward remaining true to ICP's mission and to engage in activities that will lead to innovation and growth in addressing our very human problems of peace, human rights, and psychological well-being.

**We begin the year with a flurry** as **Arthur Roh**, our interim Secretary General, has made inroads in creating our new letterhead, listserve, virtual meeting

schedule of our new extended Executive Committee; revitalized our membership lists; transitioned our bank accounts; all toward readying us for the important challenges before as we enter our 2018 year. We appreciate **Nancy Quatrano's** role as Interim Secretary General over the past several years to ICP.

**I look forward to a robust 2017-18** year as we prepare for the 2018 Conference in Montreal prior to the beginning of ICAP. We hope to strengthen our relationship with a signed **Memorandum Of Understanding [MOU]** and renewal of ICP and IAAP's long standing shared goals toward leadership and human rights in the world arena.

**We conclude our 75th year celebration** with an anniversary volume, *Resources for International Psychology*, being edited by **Harold Takooshian, Uwe Gielen, Florence Denmark, and Ann O'Roark**. Contents will not only include **proceedings articles** from both the Yokohama and the New York City annual conferences, but features **leaders in the global community** discussing how they envision the role of psychology & the community of associations with an eye toward where psychology should go in the future.

**I look forward to working together with all ICP members toward our common goals.** Jean Lau Chin 2017-18 President

ONE EXAMPLE: Oral History Projects

Our narratives tell us a lot about people, their dreams, their struggles and their achievements. Oral History Projects provide the opportunity to capture these stories for ourselves, our children, and society--to preserve the meaning and purpose in our lives and show the lessons learned. Our narratives are embedded in the sociopolitical context which give rise to the emotions associated with these memories.

I am deeply honored to serve as President Elect of an organization whose mission is crucial and whose members have made significant contributions to human rights and social justice issues worldwide. **My vision** is to continue on the path of former leaders of the organization: **Enlarging** the association's network for international research **And educational collaboration. Increasing** membership by strengthening the role of early career psychologists and their international collaboration would be one way to ensure the ongoing place of ICP. **Sustaining and growing** the graduate student and early career networks and providing a voice for their goals and initiatives would be an important goal.

**My work** as a University professor, administrator, and mental health director and educator **has focused on breaking down boundaries and barriers for women, LGBT, and ethnic minority U.S. populations.** My educational and research career has focused on social justice issues primarily in the U.S., but my efforts have involved working on social justice issues in other countries.

I developed and co-founded a psychology master's program in Tokyo based on addressing essential contemporary topics such as trauma, family and sexual violence, substance abuse, and changing societal roles. I served as a visiting professor in **Harper Liberia, developing a non-colonial psychology curriculum** as well as providing faculty and student workshops and education around **trauma, prejudice and stereotyping, and empowering models of therapy and healing.**

It is an honor to work with the many committed and exceptional leaders of ICP.

**FIRST CALL FOR**  
**NOMINATIONS:**

Over one month has already passed since I had an exciting time at the 75<sup>th</sup> ICP Conference in New York City. I will always treasure the nice memories made there. Again, I would like to thank you for the cooperative time, energy, and hard work that made this Conference successful. I felt honored to join the celebration of the 75th Anniversary in the place where it was founded, and I am happy to know that the **Anniversary Book** headed by **Dr. Takooshian** is underway.

I extend special greetings to those undergoing consequences of hurricanes, **Harvey and Irma**, in the Southern part of the USA and the Caribbean that caused a massive amount of destruction. In addition, Mexico was hit with **devastating earthquakes**. Even though we are unable to avoid such natural disasters, we pray for the well being of members and people living in these areas.

**As the immediate past president**, I am engaging in the business of **Nomination and Election**. We hope that both of these activities will proceed in a timely fashion. **Committee members look forward to receiving your nominations.** We are eager to encourage and support people interested in and helping our ICP.

I know that ICP, in terms of membership counts, is small compared with some distinguished psychology organizations and some newer specialty associations. However, I believe the **inclusive, face-to-face culture of ICP, INC generates the passion and the power to keep developing a genuine Council of international colleagues.**

Please be reminded that we expect to send a ballot out for your vote in January. All Members are able to vote if they are “in good standing.” Dues paid or Emeritusstatus].

## TREASURER MESSAGE

Nancy M. Sidun  
PsyD, ABPP, ATR

Treasurer report: September 21, 2017

Good news!!! Our financial picture is stable, however, we had to look every carefully at our budget and how we can continue to be financially solvent as **operating costs for 2017 and projected costs for 2018 exceed our current income.**

We are fortunate that we have monies in our convention account that can offset our operating deficient for 2017 and 2018. While this has been approved by our executive committee, we do not anticipate this being long term solution.

Thus looking forward to 2019, we are working on increasing our income to insure that operating costs will be covered by what we take in as an organization.

Current balances include **\$25,780.57 in our operations account balance.** Our convention account is \$24,930.38; we are in the planning stage for our next convention in Montreal June 2018 and anticipate breaking even or very close to even.

Lastly our **Savings including the escrowed Fukuhara Award account continues to be robust at \$62,281.23.**

As mentioned in earlier reports, a **Finance Committee** to assist in making financial policy decisions to recommend to Council needed to be re-established. I'm pleased to announce that it has been re-established with members being Andrew Simons, Natalie Porter, Jean Lau Chin, and myself as chair. If, however, there is anyone else in the membership interested in serving on the committee, please let me know.

Respectfully submitted,

## BOARD SECRETARY

Justina E. Aire, PhD

Professor of Psychology Diplomate Clinician  
St. George's University GRENADA - West Indies  
E-mail: ([jaire@sgu.edu](mailto:jaire@sgu.edu))

Note. Due to unexpected illness after traveling from Africa to NYC for the 75<sup>th</sup> conference, I was unable to present the following paper.

**Oppositional Defiant Disorder (ODD) - An Under-Diagnosed Malaise in Adults**

Professor Justina E. Aire, St George's University, Grenada, West Indies

The DSM IV & V states that, the essential feature of Oppositional Defiant Disorder (ODD) is a recurrent pattern of negativistic, defiant, disobedient, and hostile behavior towards authority figures. Its diagnostic criteria include, but are not limited to, a pattern of angry/irritable mood, argumentative/defiant behavior, or vindictiveness lasting at least 6 months.

The disturbance in behavior is associated with distress in the individual or others in his/her immediate social context (e.g. family, peer group, work colleagues), or it impacts negatively on social, educational, occupational, or other important areas of functioning.

The manifestations could be mild, moderate or severe, depending on the environmental setting/s in which they are displayed.

It is also claimed that ODD is more prevalent in families in which child care is disrupted by a succession of different caregivers or in families in which harsh, inconsistent, or neglectful child-rearing practices are common. Two of the most common co-occurring conditions with ODD are attention-deficit/hyperactivity disorder (ADDHD) and conduct disorder ("Comorbidity"). These two are more highlighted thus getting requisite attention and treatment.

Yet, from my professional experience, it seems that the ODD malaise persists into adulthood. For example, what about those whose condition was not diagnosed at school, and therefore, are unaware of their situation? Quite likely prevalent in several developing countries and societies.

My suggestion, therefore, is that continuous assessment be carried out up to adulthood to enable awareness of the disorder and, thus, put in place an appropriate care and control measure for its management.

This awareness of the disorder in adults will encourage and sustain amicable relationships.

This is a challenge to psychologists and "ICP Endangered People and Children World Summit: New York, USA 2017".

## 2018 Awaits!!

The 2018 ICP, Inc Conference promises to be an exciting meeting in **Montreal Canada**, planned for **June 23-26**, at the Delta Hotel in downtown Montreal, near McGill University and the Montreal Convention Center. The ICP meeting dates will coordinate with the International Congress of Applied Psychology (ICAP) which runs June 26-30, 2017, and also includes the annual meeting of the Canadian Psychological Association.

The 2018 conference chair is ICP, Inc President-Elect, **Natalie Porter**. She has chosen Human Rights, Dignity, and Justice as the theme, with subthemes focusing on actions to make this happen: Subthemes are: Cross-Border Collaborations, Diversity and Equity, Indigenous Rights, Global Mental Health, Displacement, Migration, and Refugees, and Psychology and Leadership. **The local organization in Montreal is being chaired by Dr. Ada Sinacore, McGill University.**

**You can find information about ICP, Inc 2018** through the revamped web at [www.icpweb.org](http://www.icpweb.org). Please watch for conference news – the call for papers, call for volunteers, workshop information, and more on planned innovative programming. Montreal, a multicultural, multilingual city, will be a perfect backdrop for ICP, Inc's 76<sup>th</sup> conference where we hope to bring together a dynamic group of colleagues interested in how psychology can contribute to the modern world!

**One of the lovely aspects of ICP's Director at Large elected positions is Directors are free to provide service where it is needed.** This report covers activities since spring, 2017, on three topics: ICP2017, Membership and Long Range Planning, and the ICP image on the web.

## ICP2017

The spring was spent in intensive preparation for the successful 75<sup>th</sup> ICP, Inc conference in New York – preparing the website, registration materials and forms, coordinating with an online payment system, and making sure that information on who was coming was up to date and available to the conference organizers. **One of the outcomes of the conference preparation is that ICP, Inc now has available web-based registration forms, payments forms, and a functioning email list delivery system.**

## Membership

Before and during ICP, Inc, I collaborated with **Andrew Simon** to generate and deliver a survey to members on ICP's identity and their wishes for future directions. The ICP, Inc Survey was sent out in the spring and summer of 2017 to all ICP members.

There were 39 responses – 81% from members (32% had just joined for ICP2017). The respondents included 41% who had been members for more than 5 years (several over 25-30 years!). They included 14% graduate students, 22% early career, 20% mid-career, and 46% senior career psychologists. Most (60%) had attended more than one ICP, Inc conference.

## What did respondents say:

Answer to question: *What do you believe is the primary function of ICP, Inc?*

Research Serve Peace Share Psychologists Countries  
Psychology Networking Global Promote International

Answer to question: *What do you believe is the primary function of ICP, Inc?*

Share Countries Networking Colleagues Able Friendly  
Psychologists Connections World Peace Global  
Professional Conference

Respondents also added that they:

- **Valued activities** of conferences, the newsletter, networking, and mentoring
- **Would keep the ICP mission statement** as it is, but if anything were to be added would include support for young and emerging psychologists
- **Would like to see** webinars, hosting trips to member countries, a new directory, and ways to increase the involvement of members, especially younger members

When asked **why they joined ICP**, respondents mentioned word of mouth (34%), the friendly, small, internationally minded atmosphere of the organization and compatibility of ICP goals (41%), the conference (17%) and specific ICP activities (eg the UN) (7%).

And last, the unique qualities of ICP, Inc respondents particularly valued were close ties to others in the organization; ICP's small size, friendly atmosphere, and networking focus; mentoring and international awareness.

The results of the survey are being used to inform member recruitment, activity planning, and thinking about the future – but the strong focus on friendships, collegiality, mentoring, and a global perspective should come as no surprise to ICP members or observers!!

### ICPWEB.ORG

The ICP website is getting a new look and new functionality. In addition to being an outreach arm of ICP, and delivering current news and information, it is archival – with historical records of ICP, Inc publications, meetings, reports and other documents. It is also archival for members – a highlight is a new *members only* part of the website that current has meeting minutes, and ICP documents. These pages have more in store!! They will be the home of ICP webinars, free to ICP members, a membership directory, and other member-only benefits. Stay tuned!!

### Frances Mullen Distinguished Contributions to International Psychology Award

**DR. SANDRA E. S. NEIL,**  
AUSTRALIA.

*The Frances Mullen award (1986) is presented to honor a member of the ICP, INC who has a long and distinguished history of research or and service contributions to international psychology.*

We are pleased to announce that Dr. Sandra E. S. Neil, PhD, MA (Clinical Psychology), BA, BEd (Counselling), FAPS, is the recipient of the 2017 Frances Mullen Distinguished Contribution to International Psychology Award. She is a registered psychologist, a clinical psychologist and an individual, group, marital and family psychologist. She is a Fellow of the Australian Psychological Society, a member of the College of Clinical Psychology of the Australian Psychological Society, and a member of the International Association of Applied Psychologists. She is an International Affiliate of American Psychological Association. As World Area Chair Coordinator for many years, and President of the International Council of Psychologists in 1998-99; also in the same year had a preconvention in Bali Indonesia. She has chaired and presented eminent psychologists' work in Human Rights and Global World Summits since 1982 in Portugal Spain, England, Japan, China, USA, Canada, Israel, Taiwan, Philippines, South America and Australia, and is the Australian representative of the International Academy of Family Psychologists. Dr Neil is a member of the International Women's Forum. She is a Director of The Satir Centre of Australia. Her biography has been published in Who's Who in America, the World, and, Medicine and the Health Sciences, since 2005. She has worked in the Civil, Supreme and County Courts of Australia as a Forensic Psychologist for 15 years.

Dr Neil was born in Brooklyn, New York. Her parents originated from Poland and Russia. Dr Neil and her physician husband Dr Robert Silverberg have been blessed with nine grandchildren between the ages of 18 and 6. The family history has been a motivating factor for Dr Neil's lifelong involvement in international migration and refugee status issues. This has been documented in her book "A Journey Through Three Continents and Four Generations: A Family Reconstruction" (co-authored with her daughter, Dr Simonne Neil in 2001). Dr Neil believes that her background shaped the topics she pursues in her clinical and research work. These interests resulted in

her book (with her husband, Dr Robert Silverberg) "The Family Chessboard: Sound Moves for a Sounder Family" (Neil & Silverberg 1995, 2nd edition 2014). Her personal interests include literature, music and the performing arts. She has appeared in Opera Australia's production in 2015 of "Carmen" at the Sydney Opera House, Australia. Dr Neil trains Actors for the Melbourne Theatre Company. She initiated the Public Relations and Media Committee to train Psychologists in the press, television and on radio in Australia and USA. Dr Neil worked with Dr Edith Grotberg and published chapter 'Enhancing Family Resilience' published by Praeger 2003. Initiated a series of workshops and published a chapter in Depression: Psychologists Working With Depression Across The Lifecycle. Preface and Chapter 5: "Disengaging Depression by Building Resilience, and Supporting And Educating Families, Sandra E. S. Neil (2003).

Dr Neil believes that we as ICP members can join together as Psychologists, providing leadership through example, in promoting Human Rights in the world. We are inherently multicultural: not only in the usual sense, but in the sense of multiple diverse disciplines as well. We are both scientists and artists. We are both teachers and students. We are both imaginative and practical. We explore both Eros, and Thanatos. What a privilege! Psychologists today are at the peak of professional excellence and we need to be proud of all the good and intricate work we do in the communities we live in.

### ***Seisoh Sukemune-Bruce Bain Encouragement of Early Career Research Award***

**SWATI BAJPAI, MA., PHD SCHOLAR,**

All India Institute of Medical Sciences (AIIMS), New Delhi, India

*The Sukemune-Bain award recognizes outstanding early career contributions to scholarly endeavors addressing psychological issues of a universal or multinational significance.*

We are pleased to announce that Ms. Swati Bajpai is the recipient of the 2017 Sukemune-Bain Encouragement of Early Career Research Award.

In many developing countries, old age is the most neglected stage of life where the life seemingly become burden to the caregivers, and if the elderly suffers from some kind of physical or psychological ailments, the burden would become so evident on the family members that they either look for some kind of shelter homes for the ailing elderly or shun away from taking care of them. There is also huge treatment gap in dementia in many developing countries. There are several major barriers to closing this treatment gap including the low levels of awareness about dementia as a medical disorder; however, the most significant barrier is the very low human resource capacity for the care and management for people with dementia.

The award winner Swati Bajpai started her research career in cognitive rehabilitation in Alzheimer's disease at the Clinical Neuropsychology unit, in AIIMS, New Delhi. She has extensively worked to develop and validate an intervention which aimed to retrain the cognitive abilities, in early Alzheimer's disease cases so that these elderly could maintain a bit of independent functionality and reduce their caregivers' burden. Besides, she has tested the intervention efficacy through a randomized controlled clinical trial which yielded some encouraging results. Her dedication and hard work on the same research topic led her to win many prestigious national awards and publications such as Gandhi Scholarship, Centenary

Award of Best Young Psychologist, copyrights and couple of Government of India travel award.

Our selection panel members tend to find cognitive rehabilitation in dementia/AD playing a very important and crucial role in the tertiary prevention of elderly universally which needs more attention and extensive research work in improving the management of dementia, especially in developing countries such as India. Hence, our panel members unanimously believe that her large contribution to the dementia field makes her deserving of the ICP Seisoh Sukemune-Bruce Bain Encouragement Of Early Career Research Award, which hopefully will encourage her to continue improving her meaningful work towards the field in the future.

*The 2017 Sukemune-Bain committee consists of Dr. Cecilia Cheng (University of Hong Kong, HK), Dr. Dietrich Albert (University of Graz, Austria), Dr. Chok Hiew (University of New Brunswick, Canada), and Dr. Yoshiko Kato (Kobe University, Japan). First, the food. Pumpkin is often served, as a baked vegetable or as a soup. I have eaten eel, oysters, pickled plums, seaweed, fish eggs, carrot juice. I also had aloe for breakfast. When we had a meal with alcohol, I chose beer because it seemed to go with the meal. It is also more predictable than wine. Got used to green tea ICE cream too. Last night we stayed in an old style inn, we had a room with tatami mats and a futon on the floor. I went in the hot tub where you wash up and go in naked. It was outside but secluded in a forest. You could hear and see the nearby stream. We had an elaborate farewell dinner (eel and fish eggs and oysters).* It has been a great trip. Donna G.

### World Health Organization to Study Healthy Aging

The World Health Organization (WHO) (an organization that operates as part of the United Nations), has announced plans to study important issues in health and aging. Under The Global Online Consultation on Research Priority Setting for Healthy Aging, the WHO will accumulate data to measure what issues and factors must be considered when formulating policy, as well as receive answers to important logistical and ethical questions about how best to develop and implement anti-aging techniques.

The WHO promotes health around the globe through programs that fight and prevent disease and educate people of all backgrounds in important issues in healthcare and wellness. Programs range from The Partnership for Maternal, Newborn & Child Health to programs that raise awareness and fight diseases like HIV/AIDs and Malaria. Now, the WHO has set its sights on aging and the various health issues that accompany it.

As part of the initiative, the WHO has released an anonymous survey online, in which respondents can suggest specific areas for inquiry that are not already included in a list of topics that must be analyzed to form effective policies. Among others, the survey lists the following questions as topics that will already be considered (all are quoted directly from the survey, with edits for syntax):

- “What are effective strategies to enable an older person to age in a place that is right for them (drawing on diverse mechanisms, such as supported decision making and social inclusion of older adults). What steps can high, middle, and low income countries and diverse resource

It is my pleasure to invite you to the 32nd International Congress of Psychology (ICP2020) that will take place in July 2020 in the beautiful city of Prague. With thousand years of remarkable history, Prague is renowned as a cultural center for its achievements in many spheres of the arts: architecture, music, sculpture and painting, to name but a few. Moreover, it stands out as a center of science and humanism. Many famous scientists and humanists lived and worked in Prague such as astronomers Tycho de Brahe and Johannes Kepler, religious reformer Jan Hus and anatomist and surgeon Jhohannes Jessenius (both also served as rectors of Charles University), philosopher and mathematician Bernardo Bolzano, physiologist Jan E. Purkyně, Czech Nobel prize winners Jaroslav Heyrovský and Jaroslav Seifert. Charles University also hosted Albert Einstein who lectured at the German part of Charles University. Charles University is a symbol of the significant role Prague and Czech lands played in the region. Founded in 1348 by the Czech King and Roman Emperor Charles IV, it has long enjoyed an international reputation for the high quality of teaching and research offered there. Today, more than 51 000 students study at Charles University. We could hardly find a more suitable place for the congress than Prague.

However, the Congress is not only about Prague, other cities and most notably the Moravian University centers in Brno and Olomouc are renowned both for their outstanding scholarly traditions and dynamic scientific development. Along with all Czech psychologists, we warmly invite you to participate at the ICP in July 2020, to share scientific results and to exchange opinions – in the spirit of ‘Open Minds, Societies and the World’.

Sincerely,

Stanislav Stech

ICP 2020 President

## 29th International Congress of Applied Psychology

### Invitation Message

Dear Colleagues and Friends,

On behalf of the International Association of Applied Psychology

(IAAP), it gives me great pleasure to invite you to participate in the 29th International Congress of Applied Psychology (ICAP2018) to be held in

**Montréal, Canada, June 25-30, 2018.**

**The International Congress of Applied Psychology (ICAP)** is a quadrennial event and is convened under the auspices of IAAP, which was founded in 1920. With some 3,500 individual members in over 80 countries, IAAP is the largest international organisation of psychology based on individual memberships.

**The host and organiser of the Congress, the Canadian Psychological Association,** is going to great lengths to plan a conference of truly international scope, which will bring together students, scholars and professionals from all over the world to share knowledge and experiences.

The Organising Committee is working closely with the leadership of IAAP and its 18 divisions to develop a programme that will showcase cutting-edge developments in all domains of applied psychology and related disciplines while ensuring its delivery in a way that is professional and efficient on the one hand, and warm and friendly on the other.

**The theme for the Congress – Psychology: Connecting Science to Solutions** – was chosen to promote and increase exchange among psychologists from around the globe in their common pursuits of science and science-based solutions to problems. As the programme will also feature the latest developments in basic psychological research that can be applied to “real world” problems, this Congress will also enhance dialogue between applied and basic psychological science.

**What makes the International Congress of Applied Psychology especially attractive** is the variety of venues, which allow participants to enjoy hugely different geographic, cultural and gastronomic environments, and to encounter people of different ethnic backgrounds speaking different languages.

**The Congress will be located in the Palais des congrès in the heart of Montréal,** a charming multicultural city, with excellent art galleries, museums, theatres, restaurants, bistros, gardens, and some of Canada’s greatest places to shop. The Congress will also overlap with the Montreal Jazz Festival, the largest of its kind in the world.

We are looking forward to the pleasure of greeting you in Montreal in 2018 at the 29th International Congress of Applied Psychology.

**ICAP2018 will be a very special experience...**

**Prof. Dr. Janel Gauthier**  
President of the International Association of Applied Psychology

**“Intrepid RiskTakers,  
Resilience Vs Revisioning,  
And Anniversary Publications”**

*Ann Marie O'Roark, PhD., ABAP*

**St. Augustine, Florida USA.** Leaders today in the International Council continue as intrepid and as risktaking as those who set in motion the National Council of Women Psychologists nearly 76 years ago. The PWQ 34, 311-327, article illuminates the early ways members “perceived the group’s goals and engaged in debates over its purpose’ (p.312). The 75<sup>th</sup> annual meeting provided a contemporary example of the continuation of this dynamic. This cultural characteristic is likely one of the strongest factors in the longevity of what now is legally known as ICP, INC and lovingly called ICP.

One symbol for creativity is the bust of the Greek God Janus, with a face looking both directions. It was Albert Einstein who asked how it could be that something could be in motion and perceived as stationary at the same time. Holding two opposing thoughts in mind at the same time was a basis of Virginia Satir’s theory for developing solutions to conflicts.

The ICP intrepid risktakers have both resilience and revisioning capabilities that they have had the courage to acutalize and the intellective hardiness to winnow , harvesting a here and now innovation and approach that supports a feasible way to continue the purpose of maintaining an association: Certificate of Incorporation, Bylaws, Article 1.3:

**ICP is a nonprofit corporation, governed by the bylaws, organized exclusively for educational and scientific purposes. Its purpose is to advance psychology and the application of its scientific findings throughout the world.**

As generations of leaders perceived bylaws as needing to be simple or as needing to embrace more details, the association has arrived at a juncture where bylaws are simplified, but the governance is quagmired over the absence of the details now stated in Rules [administrative procedures] and Policies [guiding values]. As leaders continue the debate and efforts to come to a creative recapitulation of the governing

documents, they also need to remember that until new statements are approved and disseminated, they are bound by extant statements of Rules and Policies. Unfortunately, these extant materials are infrequently referenced or even known.

On the far horizon of internal efforts at revisioning continuity in the presence of increasing appetites for speed, novelty and change is the upcoming ICP 75<sup>th</sup> anniversary book. ICP leaders are inviting global leaders in the community of psychological associations to make statements of their vision of the ideal role for psychology and the international associations in the future. This collection promises to be another innovative, creative and inclusive contribution from ICP, INC.

## GUIDELINES FOR HOSTING AN INTERNATIONAL COUNCIL OF PSYCHOLOGY ANNUAL CONFERENCE AND BOARD MEETING

The International Council of Psychology, Inc holds an annual scientific program and Board meeting each year in accord with the policy of freedom of movement of scientists. The conference host (local arrangements committee) must be a member of ICP, Inc. To establish the feasibility of submitting an application, a potential applicant might begin with an overview of some logistical issues for proposing a Congress venue:

- Is there a conference venue to host at least 100 participants? (50)? (30)?
- Are there sufficient hotel rooms close to the conference venue
- Is there a scientific community to develop or sponsor the program?

Proximity in time and site to other major professional congresses. ICP operates in alliance with the International Association of Applied Psychology [IAAP, quadrennial congresses], the International Union of Psychological Science [IUPsyS, quadrennial congresses that meet in between the IAAP cycles]; the American Psychological Association or the Canadian Psychological Association; with options for meeting near allied professional association on intervening years.

Proximity in time and site to other major professional congresses. ICP operates in alliance with the International Association of Applied Psychology [IAAP, quadrennial congresses], the International Union of Psychological Science [IUPsyS, quadrennial congresses that meet in between the IAAP cycles]; the American Psychological Association or the Canadian Psychological Association; with options for meeting near allied professional association on intervening years.

Geographical Rotation among continents and countries attempts to guarantee broad geographical coverage, proximity to other major professional conferences, or in regions where psychologists may not have presented a scientific program previously. The scientific community in the conference country is especially invited to participate in the scientific program.

Communication: There is a requirement for intensive and frequent communication between the Board President, Scientific Program Chair, Local Arrangements

Chair, Workshops Chair, InAbsentia Student Posters Chair, and Awards Chairs.

Costs for participating in the Congress are another factor. The Board will expect that the registration fee will be reasonable, that there is a range of good hotel rates (particularly including inexpensive ones), and that travel costs can be kept as low as possible. Despite efforts to keep costs low, travel is expensive for young psychologists, and for psychologists from the developing world and transition countries. It is therefore important to provide a plan that will guarantee special fees, housing, and support for those colleagues.

A balanced budget needs to be provided in outline. It is important to show realistically how the income (registration fees and other) will cover your costs. It may be helpful to consult the preceding organisers of Conferences in drafting the budget. The budget is reviewed by the President and the Treasurer, who can offer advice.

These collated RULES have been amended. Revisions are in BOARD MINUTES.

Any not specifically amended are still in effect. Bylaws (2012) were intentionally simplified with the expectation that leaders could submit written adjustments for board vote.

### ARTICLE 2. *Board Rules* .MEMBERSHIP.

**1. Types of Membership.** A number of descriptive terms used to refer to members are titles related to method of selection, dues payment obligations, or special recognition by the President. **Charter** members are the founders of the Council. **Permanent** members are individuals who paid a lump sum of money to meet funding needs in the late 1980s. **Honorary** members are persons who did not apply for membership but received an award or contributed to or supported the Council in a significant manner. A nomination is made by the President for Honorary status and approved by the Board. **Ambassador** is a recognition given by the President to members who represent ICP in international settings. The term **Full Member** may be used for Member as needed, for example, when the term is the first word in a sentence or appears in a heading.

**2.** Life Member applications were discontinued by action of the Board July, 2000. Life Members previously

qualified had no dues requirements and received all benefits of membership, including voting rights, publications, and reduced conference registration fees. Association administration costs became prohibitive when half of the Council's membership fell into non-dues paying membership groups. Board motions were passed in 2008 and re-affirmed in 2009 that instructed the Treasurer to call for dues from all members, including current Life Members and Permanent Members for at least the calendar year 2010.

3 Associate Members. This category includes applicants who have paid dues but not been approved for full membership status by the Membership Committee or Board.
